

# KAIRUI ZENG

kairuizeng@berkeley.edu  
Berkeley, CA | (510) 206 8793  
github: kaitokid | linkedin: kairui

## EDUCATION

- **UNIVERSITY OF CALIFORNIA, BERKELEY** Berkeley, CA  
B.A. in Computer Science May 2019  
**Organizations:** Berkeley Hyperloop, Computer Science Undergraduate Association, Cal Climbing  
**Classes:** Human Computer Interaction, Data Structures & Algorithms, Data Science, Systems and Controls  
**Skills:** Service Design, Python, Java, SQL, Django, Jupyter, Docker, Javascript, UI, UX, Git, Pokémon trainer

## WORK EXPERIENCE

- **PROPELLAND** San Francisco, CA  
Creative Technologist May 2017 - Ongoing
  - Designed and built a medical hydration analysis platform to be used at 2018 FIFA World Cup Russia
  - Implemented the backend and API in Django and deployed with Docker for production; used Celery and Redis for asynchronous task management and RabbitMQ for device communication
  - Devised strategic business plans and built product pitches for Fortune 100 clients through primary research and ideation sessions
- **UC BERKELEY ASUC - OFFICE OF THE CTO** Berkeley, CA  
Project Manager & Deputy CTO September 2016 - Ongoing
  - Overlook development of three products (BerkeleyTime, etc) used by over 60% of the student body
  - Lead a team to create an autonomous webcasting service to improve course content accessibility
  - Built pipeline to process video and track lecturer's movement with an OpenCV framework
- **HALO NEUROSCIENCE** San Francisco, CA  
Research Intern May 2014 - July 2014
  - Designed lab experiments to improve motor activity through transcranial direct current stimulation
  - Programmed motor skill tests in Javascript which tested participant reaction times and improvements
  - Confirmed viability of tDCS in high intensity sports through studies with eSports professionals

## LEADERSHIP AND PROJECTS

- **UAVS AT BERKELEY**  
Co-Founder and Racer
  - UAV-B finished 2nd place in the 2016 National Collegiate FPV (First Person View) racing tournament
  - Obtained sponsorships worth over \$5k from companies such as DJI, 3DR, and Kespry
  - Oversaw organization-led research projects for mid-air refueling of UAS and first-person laser tag
  - Co-authored campus-wide policies regarding UAS safety and regulation with UC Regents and Police
- **U-LED**  
Customizable Sound Reactive LED Strip
  - Designed a sound-reactive LED strip that glows and flashes depending on BPM of music
  - Built the backend with Flask and developed a VUI to be used with Amazon Echo and Google Home
- **FOODWAGON - TECHCRUNCH DISRUPT 2016 SF HACKATHON**  
Cisco Award Winner
  - Designed and implemented a chat bot to promote company inclusion through lunch socials
  - Used NodeJS, node-flint framework, Django, and MapQuest API to build platform for employees to easily join others for outings based on restaurant and hobby preferences
