

# KAIRUI ZENG

kairuizeng@berkeley.edu  
Berkeley, CA | (510) 206 8793  
github: kaitokid | linkedin: kairui

## EDUCATION

- **UNIVERSITY OF CALIFORNIA, BERKELEY** Berkeley, CA  
**B.A. Double Major in Economics and Computer Science** May 2019  
Organizations: UC Berkeley Hyperloop, Computer Science Undergraduate Association, Cal Climbing  
Classes: Human Computer Interaction, Data Structures and Algorithms, Data Science Foundations

## WORK EXPERIENCE

- **PROPELLAND** San Francisco, CA  
**Creative Technologist** May 2017 - Ongoing
  - **Software lead** for a secret project to be used by all National teams at 2018 FIFA World Cup Russia™
  - Designed and developed back-end, architecture, pipeline and API with **Django, RabbitMQ, Docker**
  - Used **Python** with Google's Gmail API to detect incoming packages and for a smart lock project
  - Assisted with **primary research** and **ideation sessions** to build case studies and product pitches
  - **Assessed and redesigned business strategies** of clients like Coca-Cola for a new brand image
  - Analyzed UI/UX **usability heuristics, defined personas**, and strategized **ideal user journeys**
  - Hosted pro-bono **design thinking workshops** for local non-profits with Autodesk Foundation
- **UC BERKELEY ASUC - OFFICE OF THE CTO** Berkeley, CA  
**Project Manager & Deputy CTO** September 2016 - Ongoing
  - Leading a team to create an **autonomous webcasting** service for Berkeley classes
  - **Building pipeline** to automatically process video and track movement with an **OpenCV** framework
  - **Soft-launched the service** which was put to use between 5 classes in 3 departments in Spring
- **CleNET TECHNOLOGIES** Santa Clara, CA  
**Product Management Intern** May 2016 - July 2016
  - **Analyzed market need** and managed development of 4 core features expanding app functionality
  - **Designed solution sets** with engineers to lower barrier of entry for users in Western audience
  - **Created a marketing campaign** targeting University students increasing user base by 23%

## LEADERSHIP AND EXTRACURRICULARS

- **UAVS AT BERKELEY**  
**Co-Founder**
  - Co-founded the organization and obtained sponsorships from companies such as DJI, 3DR, BH Photo
  - Designed, developed and implemented UC Berkeley guideline regarding UAS safety and UAS policy
  - Hosting workshops for campus community in flying and building UAS for research and recreation
- **U-LED**  
**Customizable Sound Reactive LED Strip**
  - Designed an IoT sound-reactive LED strip that runs off of an RPi, beat detection module, and USB mic
  - Built the backend with Flask and many Python libraries: supervisor, ws\_281x, subprocess, and more
- **TECHCRUNCH DISRUPT 2016 SF HACKATHON - WINNER**  
**CISCO Award**
  - Used NodeJS and node-flint to design and build an office productivity tool for Cisco Spark
